Cilj nam je kreirati profesionalni video nadzor koji se lako koristi

Nikada nemojte propustiti važne događaje s pregledom od 360° stupnjeva u jednoj slici. Prikaz cijele scene na jednoj slici velika je prednost. Mrtvi kut može ozbiljno narušiti pouzdanost vašeg rješenja za video nadzor. Od sada više nikada nećete propustiti važne događaje zahvaljujući pregledu od 360° stupnjeva koji pruža FLEXIDOME IP panoramičnu 5000 MP kameru. **Saznajte više na www.boschsecurity.com/hdsecurity**
